

Essence: Sweet children, you are instruments to establish peace in the world. Therefore, you must never become peaceless.

Question: Which children does the Father call His obedient children?

Answer: The children who follow the Father's main direction of waking up at amrit vela and remembering the Father, those who bathe early in the morning and *freshen* themselves up and sit in the pilgrimage of remembrance at the fixed *time* are said by the Father to be worthy and obedient children. They are the ones who will become kings. Unworthy children will end up sweeping the floor.

Om shanti. The meaning of this has been explained to you children. "Om" means I am a soul. Everyone says that there is definitely a living being and that there is also the one Father of all souls. The father of one's body is separate. It is in the intellects of you children that you receive limited inheritances from your limited fathers and an unlimited inheritance from your unlimited Father. People want peace in the world at this time. When you explain about peace using the pictures, you should bring them to the confluence of the end of the iron age and the beginning of the golden age. That is the golden age, the new world, in which there is the one religion of purity, peace and happiness. That is called *heaven*. Everyone accepts that there is happiness in the new world and that there cannot be sorrow there. It is very easy to explain this to anyone. The question of peace and peacelessness arises here in this world. That is the land of Nirvana where the question of peace and peacelessness doesn't arise. When you children give lectures, you should first of all take up the topic of peace in the world. Human beings make a lot of effort to attain peace and they even receive *prizes*. In fact, there is no question of running around for peace. The Father says: Simply stabilise yourself in your original religion and your sins will be absolved. By stabilising yourself in your original religion, there will be peace. You are children of the *ever-peaceful* Father. You receive this inheritance from Him. That isn't called eternal liberation. Even God cannot receive eternal liberation. God, too, definitely has to come to play His *part*. He says: I come at the confluence age of every cycle. If God doesn't receive eternal liberation, how could His children have eternal liberation? You have to churn the ocean of knowledge about these things all day. The Father only tells you children these things. You children have more *practice* in explaining to others. When Shiv Baba explains, only you Brahmins understand. You are the ones who have to churn the ocean of knowledge because you are the ones on *service*. You have to explain a great deal because you remain on *service* day and night. People continue to come to the *museums* all day long. In some places, people even come until 10 or 11pm. In other places, they begin to serve them from 4.00am. Here, it is your home and so you can sit here whenever you want. People go to the *centres* outside from far away. Therefore, they have to have a fixed *time*. Here, children can wake up at any *time*. However, you mustn't study till late and then nod off after waking up in the morning. Therefore, the morning *time* is fixed so that you can bathe and *freshen* yourselves up and then come here. Those who don't come on *time* are not called obedient children. A physical father has worthy and unworthy children. The unlimited Father also has such children. Worthy ones will go and become kings whereas unworthy ones will go and sweep the floors. Everything will be known. The birth of Krishna has also been explained to you. It is heaven when Krishna takes birth. At that time there is just one kingdom and there is peace in the world. There will be very few human beings in heaven. That is the new world. There cannot be peacelessness there. There is peace when there is the one religion that the Father establishes. Later, when other religions come, there is peacelessness. There, there is only peace because they are 16 celestial degrees full. The moon is so beautiful when it is full! That is called the *full moon*. Those in the silver age are said to be *three-quarters* full. Therefore, they became defective; they are two degrees less. There is complete peace in the golden age. When the world becomes 25% old, there will be a little conflict. The beauty decreases when two degrees are reduced. In heaven there is complete peace whereas in hell there is complete peacelessness. This is the time when people want peace in the world. Previously, there wasn't that much sound of people wanting peace in the world. Now that sound has spread because peace is being established in the world. Souls want peace in the world. People simply talk about peace in the world because they are body conscious. The 84 births are now coming to an end. Only the Father comes and explains this. You remember the Father alone. When and in which form does He come and establish heaven? His name is *Heavenly God, the Father*. No one knows how He creates *heaven*. Shri Krishna cannot create it; he is called a deity. Human beings bow down to deities. It is because they have divine virtues that they are called deities. When someone has many virtues he is said to be like a deity. Those who fight and quarrel are said to be like devils. You children know that you are sitting in front of the

unlimited Father. So the behaviour of you children should be very good. The Father has seen some extended families on the path of ignorance where six to seven families all live together like milk and sugar, whereas, in other families, there are only two people but they fight and quarrel. You are the children of God. You have to stay together absolutely like milk and sugar. In the golden age they live like milk and sugar. You are learning to live like milk and sugar here. So, you have to live with each other with a lot of love. The Father says: Check yourself to see that you haven't performed any sinful actions. Have I caused anyone sorrow? None of you sits and checks yourself in this way. This is a matter of great understanding. You are the children who are to establish peace in the world. If there are some who create peacelessness at home, how could they establish peace? If a child causes trouble for his physical father, he (the father) says it would be better if he were dead. Habits become firm. Some don't understand that they are children of the unlimited Father and that they have to establish peace in the world. You are Shiv Baba's children. Therefore, if you are peaceless, go to Shiv Baba. He is the Diamond. He will very quickly show you a method to become peaceful. He will show you a method for peace. There are many whose behaviour is not like those of a royal family. You are now getting ready to go to the beautiful new world. This is the dirty world, the brothel, which is disliked. Peace in the world will be in the new world. There cannot be peace at the confluence age. Here, you are making effort to become peaceful. If full effort is not made, there has to be punishment. Dharamraj is also with Me. When the time to settle all karmic accounts comes, there will be great punishment. There is definitely the suffering of karma. When someone falls ill, that too is the suffering of karma. There is no one higher than the Father. He explains: Children, become beautiful and you will claim a high status. Otherwise, there is no benefit. If you don't claim your inheritance from God, the Father, whom you have been remembering for half the cycle, then of what use are you children? However, according to the *drama*, this definitely has to happen. So, there are many ways in which you can explain to others. There was peace in the world in the golden age when it was the kingdom of Lakshmi and Narayan. The war will definitely take place because there is peacelessness. Krishna will then come again in the golden age. It is said that even a shadow of the deities cannot come in the iron age. Only you children listen to these things. You know that Shiv Baba is teaching us. You have to imbibe this. It takes your whole life to do this. It is said: Even if you explain to them for their whole life they still won't be able to understand! The unlimited Father says: First of all, explain the main thing. Knowledge is separate from devotion. For half the cycle, it is the day and for half the cycle it is the night. In the scriptures, they have written the duration of the cycle wrongly, in which case it wouldn't be half and half. Among you too, it is good if you haven't studied the scriptures. Those who have studied them will have doubt and continue to ask questions. In fact, when it is people's stage of retirement they remember God by following someone or other's directions. It depends on what their guru teaches them. They are taught devotion too. There is no guru who doesn't teach devotion. They have the strength of devotion and this is why they have so many *followers*. *Followers* are said to be devotees and worshippers. Here, all are worshippers. There, no one is a worshipper. God can never become a worshipper. Many *points* are explained to you. Gradually, you children will develop the power to explain to others. You now tell them that Krishna is coming. Krishna will definitely be in the golden age. Otherwise, how would the *world history* and *geography repeat*? Krishna won't be there alone; as are the king and queen, so the subjects. This too requires understanding. You children understand that you are the Father's children. The Father has come to give you your inheritance. Neither will everyone go to heaven nor will everyone go to the silver age. The tree grows gradually. This is the human world tree. There, that is the tree of souls. Establishment takes place here through Brahma. Then there is destruction through Shankar and then there is sustenance. You should say these words correctly. You children have the intoxication of how the world cycle spins, how creation takes place! There is now the new, small creation. This is like a somersault. First, there are many shudras and then the Father comes and creates the Brahmin creation through Brahma who then become the topknots. The topknot and the feet come together. First, there have to be Brahmins. The age of Brahmins is very short and then there are deities. This picture of the different castes is very useful. It is very *easy* to explain this picture. It shows the *various* forms of the *variety* of human beings. There is so much pleasure in explaining this. When Brahmins exist, all the other religions also exist. The *sapling* of Brahmins is planted from shudras. People plant tree *saplings*. The Father too is planting a *sapling* for there to be peace in the world. Achcha.

To the sweetest, beloved, long-lost, now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.
