

Essence: Sweet children, you now have to return home. Therefore, forget all your bodily relations including your own body; constantly remember Me alone and become pure.

Question: What subtle aspects connected with the soul can only be understood by those who have refined intellects?

Answer: 1. The soul has gradually been covered with rust like a needle. That rust can only be removed by staying in remembrance. Only when the rust is removed, that is, only when the soul becomes satopradhan from tamopradhan, can there be the pull of the Father and can the soul return home with the Father. 2. To the extent that the rust is removed, accordingly your explanations will pull others. These are very deep and subtle aspects which cannot be understood by those with gross intellects.

Om shanti. God speaks. Who entered your intellects? When “God speaks” is said at other Gita pathshalas they only have Krishna in their intellects. Here, you children remember the highest-on-high Father. At this time it is the confluence age when you become the most elevated human beings. The Father sits here and says to you children: Break all relationships of the body, including that of your own body, and consider yourself to be a soul. This is most essential. Only at the confluence age does the Father explain this. It is souls that become impure. Souls now have to become pure and return home. People have been remembering the Purifier but they don't know Him. The people of Bharat are in total darkness. Devotion is the night and knowledge is the day. There is darkness at night and light during the day. The golden age is the day and the iron age is the night. You are now in the iron age and have to go to the golden age. There is no *question* of anyone being impure in the pure world. It is only when you become impure that there is the *question* of becoming pure. When you are pure, you don't even remember the impure world. Now that the world is impure, you remember the pure world. The impure world is the second half of the cycle and the pure world is the first half. There cannot be anyone impure there. Those who were pure have now become impure. The 84 births that are spoken of refer to them. These are very deep matters and have to be understood. You have been performing devotion for half the cycle and so you can't stop it that quickly. Human beings are in total darkness. Only a handful out of multimillions emerge. This knowledge hardly sits in anyone's intellect. The Father says: The main thing is to forget all bodily relations and constantly to remember Me alone. Souls have become impure and have to become pure. Only the Father gives this explanation because this Father is the *Principal*, the Goldsmith, the *Doctor*, the *Barrister*, everything. These names will not remain there. Even this study will not remain there. People study here in order to obtain employment. In earlier days *females* didn't study as much. They learnt all of this later on. Who would look after the home if the husband were to die? This is why *females* learn everything. Such things don't exist in the golden age for you to worry about. Here, they save money for such a time. There, you don't have such thoughts to worry about. The Father makes you children so wealthy. In heaven you have many treasures. Mines of diamonds and jewels are all overflowing. Here, the land has become barren and has no strength. There is the difference of day and night between the flowers there and the flowers here. Here, all the strength of everything has finished. Although they import seeds from America etc., none of them has any strength. The land is such that you have to make a lot of effort. There, everything is satopradhan. The elements are satopradhan and so everything else is satopradhan. Here, everything is tamopradhan. There isn't any strength left in anything. Only you understand this difference. Only in trance can you now see satopradhan things. The flowers there are so beautiful. It's possible that you can see the grain that they have there. You can understand it with your intellect. There, everything has so much strength. The new world doesn't enter anyone's intellect. Don't even ask about this old world! Such tall stories have been told that they have completely put all human beings to sleep in total darkness. When you tell them that very little time remains, they laugh at you. In *reality*, only those who consider themselves to be Brahmins will understand this. This is a new language, a spiritual study. Until the *spiritual Father* comes, no one can understand anything. You children know the *spiritual Father*. Those people teach yoga etc., but who taught them? It can't be said that the *spiritual Father* taught them. The Father only teaches you spiritual children. Only Brahmins who belong to the confluence age understand this. Only those who belong to the original eternal deity religion will become Brahmins. There are so few of you Brahmins! In the world there are so many different castes and creeds. There definitely must be a book in which you can find out how many religions and how many languages there are in the whole world. You know that none of those will remain. In the golden age there was one religion and one language. You now know the world cycle. You can also understand that none of these languages will remain. Everyone will go to the land of peace. You children

have now received the knowledge of the world cycle. Even when you explain to people they don't understand this. You get eminent people to carry out *openings* because they are very well known, and the sound will spread: Wonderful! The *opening* was carried out by the *President* or the *Prime Minister*. If this Baba were to do this, people would not believe that it was the Supreme Father, the Supreme Soul, who carried out the *opening*. When the *Commissioner* and others come here, others come running after them. No one would come running after this one. There are now very few of you Brahmin children. Only when there is a *majority* of you will they understand. If they were to understand this now, they would come running to the Father. Someone told one of the daughters: We want to go *directly* to the person who taught you. However, if a needle is rusty, how can it be pulled by a magnet? The magnet can only pull the needle when the rust is removed. If even a slight part of the needle is covered with rust, it cannot be pulled that much. It will only be at the end that you become such that all the rust would be completely removed. You will then return home with the Father. Your concern now is that you have become tamopradhan and are covered with rust. The more you stay in remembrance, the more the rust will be removed. Just as the rust accumulated gradually, so it will continue to be removed gradually. It will be removed in the same way. Just as the rust has accumulated, so too it has to be removed, and you have to remember the Father for that. Some people's rust has been removed a great deal by having remembrance, whereas only a little of others has been removed. The more someone's rust is removed, the more he will be able to pull others with his explanations. These are very refined matters. Those who have gross intellects cannot understand these things. You know that a kingdom is being established. Many different methods continue to emerge day by day for you to explain to others. Previously, you didn't know that you would have exhibitions and *museums* etc. As you make further progress, it's possible that there might be something else. There is now still *time* left before establishment has to take place. You mustn't become disheartened. If you are unable to control your physical organs, you fall. If you fall into vice, the needle will become very rusty. A lot of rust has accumulated through the vices. In the golden and silver ages, there is absolutely very little rust accumulated, and then, after half the cycle, it accumulates quickly. It is because you fall down that it is said: Viceless and vicious. There are signs of the *viceless* deities. The Father says: The deity religion has disappeared, but signs of it still exist. The best sign is this picture. You can take this picture of Lakshmi and Narayan around with you because you are becoming that. The kingdom of Ravan is being destroyed and the kingdom of Rama is being established. This is the kingdom of Rama and that is the kingdom of Ravan; this is the confluence age. There are so many *points*. *Doctors* keep so many different types of medicine in their intellects. A *barrister* has so many different *points* in his intellect. A very good book can be written of many different *topics*. Then, when you go to give a lecture, you can just go through the *points*. Those who have *shrewd* intellects would quickly glance through them. First of all, you should write down what you are going to explain. Sometimes, you remember things after you have given the lecture: "If I had explained this, it would have been better." By explaining these *points* to others, they will also sit in your intellect. A *list* of *topics* should be created. You should select a *topic* and prepare a lecture within yourself, or write it out and then check whether you were able to write down all the *points*. The more you work on this, the better it will become. The Father understands that so-and-so is a good *surgeon* and has many *points* in his intellect. If you go from here having become full you won't enjoy yourself without doing *service*. When you have exhibitions, two to four people sometimes emerge or six to eight people sometimes emerge. Sometimes, not even one person emerges. Thousands may have seen the exhibition, but so few emerge from them. This is why you now continue to make very big pictures. You are continuing to become clever. You can also see what the condition of important people is. Baba has explained that you should find out whom you should give this *knowledge* to. You should feel the pulse of those who are My devotees. Explain one main thing to those who study the Gita: Only the Highest on High is called God. He is incorporeal. No bodily being can be called God. You children have now received full understanding. Sannyasis renounce their homes and run away. Some run away in childhood while still celibate. It would be the same for them in their next birth; they definitely take birth through a mother's womb. Until they get married they are free from bondage and so they don't remember their relations etc. that much. When they are married they remember all their relations. It takes *time*; they cannot become free from bondage so quickly. Everyone knows his own life story. Sannyasis understand that they themselves were previously householders and that they then took up renunciation. Your renunciation is greater and this is why it takes effort. Those sannyasis rub ashes on themselves, shave their heads and change their form of dress. You don't need to do anything like that. Here, it isn't even a question of changing your *dress*. It doesn't matter if you don't wear a white sari. This

knowledge is for the intellect. "I am a soul and I have to remember the Father. It is through this that the rust will be removed and I will become satopradhan." Everyone has to return home. Some will become pure through the power of yoga and some will experience punishment before returning. You children have to make effort to remove the rust, and this is why the fire of yoga is remembered. Sins are burnt in the fire. You will then become pure. The pyre of lust is also called a fire. By burning in the fire of lust you have become absolutely ugly. The Father says: Now become beautiful! These things cannot sit in the intellect of anyone except you Brahmins. These are unique things. When people say to you that you don't even believe in the scriptures and that you have become atheists, tell them: We used to study the scriptures, but the Father has now given us this knowledge. It is through knowledge that there is salvation. God speaks: No one can attain Me by studying the Vedas or Upanishads, by making donations or performing charity. It is only through Me that you can attain Me. Only the Father comes and makes you worthy. When a soul becomes rusty, he calls out to the Father to come and purify him. Souls that have become tamopradhan now have to become satopradhan. From being tamopradhan, souls have to become tamo, rajo, sato and then satopradhan. If anything goes wrong in between, further rust accumulates. The Father is making us so elevated. Therefore, there should be that happiness. People go abroad in great happiness to study. You are now becoming so sensible. In the iron age you have become so tamopradhan and senseless. The more love you have, the more they oppose you. You children understand that your kingdom is being established. Those who study well and stay in remembrance will attain a good status. The *sapling* is being planted in Bharat. Your name is being glorified through the newspapers day by day. Newspapers are sent everywhere. The same journalists sometimes write good things and sometimes bad things because they rely on what they hear. They write whatever someone tells them. Many rely a lot on what they hear. That is called following the dictates of others. The dictates of others are devilish dictates. The Father gives elevated directions. When someone tells them something wrong, they stop coming. Those who remain engaged in *service* are aware of everything. Whatever service you do here, that is your *number one* service. You do service here and you receive the fruit there. Everything you do here is with the Father. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. The needle of the soul has become rusty. Make effort to remove the rust with the power of yoga and become satopradhan. Never stop studying because of hearing what others tell you.
2. Keep your intellect full of *points* of knowledge and do *service*. Give knowledge after feeling their pulse. Become one with a very *shrewd* intellect.

Blessing: May you be a *master* bestower, the same as Father Brahma, by experiencing the stage of having positive thoughts for yourself and others.

In order to become a *master* bestower, the same as Father Brahma, remain free from jealousy, dislike and *criticism* and have pure and positive thoughts for everyone. Experience the stage of having positive thoughts for yourself because those who have any fire of jealousy in them burn themselves and also distress others. Those with dislike fall and also make others fall. Those who even jokingly *criticize* souls discourage them and cause them sorrow. Therefore, remain free from these three things and by experiencing the stage of having pure and positive thoughts for others, become *master* bestowers, children of the Bestower.

Slogan: Become a master of the self and have complete mastery over your mind, intellect and sanskars.

* * * O M S H A N T I * * *
