

- Essence:** Sweet children, think about who has come to teach you and you will have goose pimples of happiness. The highest-on-high Father is teaching you. Never stop studying such a study.
- Question:** What faith have you children now developed? What is the sign of those who have faithful intellects?
- Answer:** You now have the faith that you are studying the study to become *double*-crowned kings of kings. God Himself is teaching you and making you into the masters of the world. You have now become His children. Therefore, you should now get engrossed in this study. Just as small children don't go to anyone except their parents, so you too have found the unlimited Father and should therefore not like to go to anyone else. You should have remembrance of the One alone.
- Song:** Who has come in the early hours of the morning?  
 Om shanti. You sweetest children heard the song. Who has come and who is teaching you? This is something to be understood. Some are very clever and some less so. Those who are very well educated are said to be very clever. Those who have studied the scriptures receive a lot of respect from others. Those who have studied less receive less respect. You heard the words of the song as to who has come to teach you. The *Teacher* has come. Those studying in a *school* know when their *teacher* comes. Who has come here? You should have goose pimples thinking about this. The highest-on-high Father has come once again to teach you. This is something to be understood. It is also a question of fortune. Who is teaching you? God! He comes and teaches you. The conscience says that, no matter how elevated a study someone may be studying, he should instantly leave that study and come to study with God; he should leave everything in a *second* and come to study with God. Baba has explained: You have now become those of the most elevated confluence age. Lakshmi and Narayan are the most elevated beings of all. No one in the world knows what *education* they studied to claim their status. You are studying to claim that status. Who is teaching you? God! Therefore, you should leave all your other studies and busy yourself in this study because it will only be after a cycle that the Father will come again. The Father says: I come every 5000 years to teach you personally. It is a *wonder*! You say that God is teaching you to enable you to attain a status. In spite of that, some don't study. The Father would then say: This one is not sensible; he doesn't pay full attention to the Father's study. He forgets the Father. You say: "Baba, I forget. I even forget the *Teacher*." These are storms of Maya, but you must study this education. The conscience says that, since God is teaching this study, you should keep yourself completely busy in it. It is little children who have to study. Each one is a soul. It is the body that is big or small. The soul says: I have become your young child. Achcha, now that you belong to Me, you must study. You are no longer little babies just living on milk. Study has to come *first*. A lot of *attention* has to be paid to this. *Students* come here to the *Supreme Teacher*. There are *teachers* who are appointed to teach you. Nevertheless, this *Supreme Teacher* is also here. "Seven days in a furnace" has been remembered. The Father says: Remain pure and remember Me. If you imbibe divine virtues you will become this. You have to remember the unlimited Father. If someone, other than the parents, tries to pick up a little child, that child would not go to them. You also now belong to the unlimited Father. Therefore, you shouldn't even want to look at anyone else, no matter who that person may be. You know that you belong to the highest-on-high Father. He is making you into the *double*-crowned kings of kings. "Manmanabhav" is the crown of *light* and "madhyajibhav" is the crown studded with jewels. You have developed the faith that you are to become the masters of the world through this study. *History repeats* every 5000 years. You are to receive a kingdom. All other souls will go to their home, to the land of peace. You children now understand that, as souls, you originally reside in the home with the Father. By belonging to the Father now, you become the masters of heaven. Then, by forgetting the Father, you become *orphans*. All the people of Bharat are *orphans* at this time. *Orphans* are those who don't have parents; they continue to stumble around. You have now found the Father. You now know the whole world cycle. Therefore, you should be bubbling with happiness inside. We are the children of the unlimited Father. The Supreme Father, the Supreme Soul, creates the new world of Brahmins through Prajapita Brahma. This is something that can be understood very easily. There are your images; the variety-form image has been created. It shows the story of your 84 births. We become deities, then warriors, then merchants and then shudras. No human being knows this because they have made all name and trace of the Brahmins and the Father, who teaches the Brahmins, disappear. You can explain all of these aspects in English very well. Those who understand English should *translate* these things and explain them to others. The *Father* is *knowledge-full*. Only He has the *knowledge* of how the world cycle turns. That is the study.

Yoga is also called remembrance of the Father. In English it is called *communion*. *Communion* with the Father; *communion* with the *Teacher* and *communion* with the Guru. This is *communion* with *God*, the *Father*. The Father, Himself, says: Remember Me. Do not remember bodily beings. Human beings adopt gurus and study scriptures. They don't have any *aim* or *objective*. They don't receive salvation through that. The Father says: I have come to take everyone back home. You now have to keep your intellect's yoga connected to the Father. Only then will you reach there. By remembering Him well you become the masters of the world. Lakshmi and Narayan were the masters of *Paradise*. Who is explaining this? The Father is called *knowledge-full*. Human beings say that He is Antaryami (One who knows everything within us). In fact, there is no such thing as the word "antaryami". The one who resides within each one is a soul. Everyone knows what the soul does. All human beings are antaryami. It is souls that study. The Father makes you children soul conscious. You souls are residents of the incorporeal world. You souls are so tiny. You have come here many times to play your *parts*. The Father says: I am a point. I cannot be worshipped. Why should they do it? There is no need for it. I come to teach you souls. I give you the kingdom. Then, when you go into the kingdom of Ravan, you completely forget Me. You souls come down first to play your *parts*. Human beings say that we take 8.4 million births, but the Father says: The *maximum* is 84 births. If you went abroad and mentioned these things, they would ask you to teach them this *knowledge* in their country. They would say: You receive 1000 rupees there, but we will give you 10 to 20,000 rupees. Give us this *knowledge* too. *God*, the *Father*, is teaching us souls. It is the soul that becomes a *judge* etc. All human beings are body conscious. None of them has this knowledge. Although there are many great *philosophers*, none of them has this *knowledge*. Incorporeal *God*, the *Father*, comes to teach us. We study with Him. They will be amazed when they hear these things. No one has heard or read about these things. Only the one Father is the *Liberator* and the *Guide*. Since He is the *Liberator*, why do you remember *Christ*? Explain these aspects to them very clearly and they will be amazed. They will say: At least let us listen to these things. *Paradise* is being established. There is this Mahabharat War for that. The Father says: I am making you into the *double-crowned* kings of kings. There used to be *purity*, *peace* and *prosperity*; everything. Just think about how many years ago that was. It became their kingdom 3000 years before *Christ*. You say that this is *spiritual knowledge*. This one is the *direct* child of that *Supreme* Father. We are studying Raja Yoga with Him. This *knowledge* is of how the *history* and *geography* of the world repeat. Each of us souls has a whole *part* of 84 births recorded in us. Through the power of this yoga, souls become satopradhan and go to the *golden age*. Therefore, a kingdom is required for them. There also has to be the destruction of the old world. That lies just ahead of you. Then there will be a world of just one religion. This is the world of sinful souls. You are now becoming pure. Tell them: We become pure with the power of this remembrance and then everything else will be destroyed. There will also be *natural calamities*. We have *realised* all of this and also seen it through divine vision. All of this is going to be destroyed. The Father has come to establish the *deity world*. When they hear this, they will say: Oho, these must be the children of *God*, the *Father*. You children know that this war will take place and that there will also be *natural calamities*. What will conditions be like then? All the big buildings etc. will begin to fall. You know that they also created those *bombs* 5000 years ago for their own destruction. The *bombs* are already prepared. What is the power of yoga with which you conquer the world? No one else knows this. Tell them: *Science* destroys you. We have yoga with the Father. It is through the power of *silence* that we become satopradhan and conquer the world. Only the Father is the Purifier. He will definitely establish the pure world before He departs. This is predestined in the *drama*. They have created those *bombs*, and so they are not just going to leave them. When you explain in this way, they will feel that you are an *authority* and that *God* has come and entered you. This too is fixed in the *drama*. When you tell them such things they will become happy. How souls have their *parts* recorded in them is predestined in the *drama*. *Christ* will come down at his own time to establish a religion. When you explain with such *authority*, they will understand that the Father explains to all the children. Therefore, you children should engage yourselves in this study. The Father, the *Teacher* and the Guru are all One. You also understand how He gives you *knowledge*. He purifies everyone and takes them back home. When there was the *deity dynasty* you were pure. You were *gods* and *goddesses*. You should be very clever in the way you speak to them and also have a good *speed*. Tell them that all the other souls reside in the *sweet home*. Only the Father can take you back home. That Father is the Bestower of Salvation for All. Bharat is His *birthplace*. This pilgrimage is so great. You know that everyone has to become tamopradhan. Everyone has to take rebirth. No one can return home yet. When you explain these things people will be very amazed. Baba says: When you speak

to them as a couple, they will be able to understand you very well. At first there was purity in Bharat. So, how did you become impure? You can also tell them this. Worthy-of-worship ones then become worshippers. When they become *impure* they start worshipping themselves. The kings have images of the deities in their homes. The impure kings, without a crown of light, worship the idols of those who were *double-crowned* deities. Those kings are worshippers. They cannot be called *gods* and *goddesses* because they worship the deities. They become worthy of worship and then become worshippers. They become impure when the kingdom of Ravan begins. It is now the kingdom of Ravan. If you were to sit with them and explain these things they would experience great pleasure. When the two wheels of a car, a couple, explain together, they can show many *wonders*. We couples are becoming worthy of worship. We are claiming our inheritance of *purity, peace* and *prosperity*. Your pictures have been created. This is the family of God. There are the Father's children, His grandsons and granddaughters, that's all. There are no other relationships. This is called the new world in which there are the few who become deities. Then expansion gradually takes place. This *knowledge* has to be understood. This Baba was a great merchant in business. He was not concerned about anything. When he saw that the Father was teaching and that destruction was just ahead, he instantly renounced everything. He clearly understood that he was going to receive a kingdom. So, of what use was this "donkeyship"? You understand that God is teaching you. Therefore, you should study very well. Follow His directions. The Father says: Consider yourself to be a soul and remember the Father. Aren't you ashamed that you forget the Father? Don't you have that intoxication? Some leave here very *refreshed* and then become like *soda water*. You children are now making effort to *serve* all the villages. Baba says: First of all, tell them who the Father of souls is. God is the Incorporeal. Only He will make this impure world pure. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### Essence for dharna:

1. God, Himself, as the *Supreme Teacher*, is teaching us. Therefore, study very well and follow His directions.
2. Have such yoga with the Father that you accumulate the power of *silence*. Conquer the world with the power of *silence*. Become pure from impure.

**Blessing:** May you be egoless and incorporeal through the lesson of being a child and a master. To be a child means for there to be transformation in your limited life. No matter how big a country someone may be a master of, or how much wealth he is a master of or a master of a big family, in front of the Father, all are children. When you Brahmins become the children, you become carefree emperors and masters of the world in the future. The awareness of being a child and a master gives you the experience of being constantly stable in the egoless and incorporeal stages. To be a child means to be child who is saved from Maya.

**Slogan:** Happiness is the *personality* of Brahmin life and so remain constantly happy hearted.
