

Essence: Sweet children, in order to make your fortune elevated, let the yoga of your intellect be connected to the one Father when you talk to anyone or look at anyone.

Question: What *directions* have the children who are instruments to establish the new world received from the Father?

Answer: Children, you don't have any *connection* with this old world. Don't attach your heart to this old world. Check that you do not perform any actions against shrimat and that you are becoming instruments for spiritual *service*.

Song: No one is unique like the Innocent Lord!

Om shanti. There is now no need to listen to songs. Generally, devotees sing songs and listen to them. You are studying an education. These songs have been especially made for you children. You children know that the Father is making your fortune elevated. We now just have to remember the Father and imbibe divine virtues. Check your chart and see whether you are making a profit or a loss. Do I have any weaknesses? If there is any weakness which would cause a loss in your fortune, you should remove that weakness. At this time, each one of you has to make your fortune elevated. You explain that only if you don't remember anyone except the one Father can you become Lakshmi or Narayan. While talking to anyone or looking at anyone, let the yoga of your intellect be connected to the One. We souls must only remember the Father. We have received the Father's orders: Do not attach your heart to anyone except Me, and imbibe divine virtues. The Father explains: Your 84 births have now been completed. You now have to go and claim the *number* one status in the kingdom. It shouldn't be that you fall from the kingdom and become part of the subjects, and that, even among the subjects, you are among the lowest subjects. No; continue to check yourself. No one except the Father can give this explanation. By remembering the Father and the *Teacher*, there will be some fear in case you do anything for which there would be punishment. Even on the path of devotion, they understand that by committing sin they are accumulating punishment for themselves. It is only at this time that you receive *directions* from the Senior Baba and these are called shrimat. You children know that you become elevated by following shrimat. You have to check yourselves as to whether you are doing anything against shrimat. You must not do anything that you don't like. You now understand the difference between good and bad; previously you didn't understand this. You are now learning to perform actions which will make your actions neutral for many births. At this time, the five vices exist in everyone. You now have to make effort very well and become karmateet. Also imbibe divine virtues. Times are becoming more and more delicate and the world is getting worse. Things will only get worse day by day. It is as though you have no *connection* with this world. Your *connection* is with the new world which is now being established. You know that we are becoming instruments to establish the new world. So, you have your *aim* and *objective* in front of you: I have to become like them. Let there not be any devilish traits in you. By remaining engaged in spiritual *service*, there can be a lot of progress. When you open exhibitions and *museums*, you believe that many people will come and that you will be able to give them the Father's introduction so that they then begin to remember the Father. Throughout the day, just have these thoughts. Open a *centre* and increase *service*. You have all the jewels. The Father inspires you to imbibe divine virtues and also gives you treasures. While sitting here, it is in your intellects that you know the beginning, the middle and the end of the world. You also remain pure. There should be no bad actions performed through your thoughts, words or deeds. You have to check yourselves very carefully in this respect. The Father has come to purify the impure. He continues to show you methods for this. You have to continue to think about these methods and entertain yourselves with them. Open a *centre* and give many people an invitation and then sit and explain to them with a lot of love: This old world is to be destroyed. First of all, establishment of the new world is very essential. Establishment takes place at the confluence age. People don't even know that it is now the confluence age. You have to explain that it is now the confluence of establishing the new world and the destruction of the old world. The new world is being established by following shrimat. No one except the Father can give directions for establishment of the new world. Only the Father comes and enables you children to inaugurate the new world. He will not do this alone; He takes the help of all His children. Those people wouldn't take any help to inaugurate anything, but they would just go and cut a *ribbon* with the scissors. Here, it is not like that. Here, you decorations of the Brahmin clan become helpers. All human beings have completely lost their way. It is the task of the Father alone to purify the impure world. Only the Father establishes the new world for which He is giving you spiritual *knowledge*. You know that the Father has the method to establish the new world.

People call out to Him on the path of devotion: O Purifier, come! Although people continue to worship Shiva, they do not know who the Purifier is. When they are unhappy, they remember Him, and say: Oh God! Oh Rama! The incorporeal One is also called Rama. The Incorporeal is called God the Highest. However, people are very confused. It is as though they are lost in a *fog*! The Father has come and removed your confusion. This is an unlimited aspect. They are trapped in a huge forest. The Father has made you *feel* which forest you were in. You now know that this world is old and that it is now at its end. People don't know the way at all! They continue to call out to the Father. You no longer call out. You children now know the beginning, the middle and the end of the *drama* and that too is numberwise. Those who know this remain very happy. They remain engrossed in showing others the path. The Father continues to say: Open big *centres*. If you have big pictures people will be able to understand easily. *Maps (posters)* are definitely needed for the children; you have to show that this too is a *school*. These *maps (posters)* here are *wonderful*. In the maps at *school*, they have limited things. These are unlimited aspects. This too is a university in which the Father explains to us the secrets of the beginning, the middle and the end of the world and makes us worthy. This is the Godly University for changing from humans into deities. It is written: "World Spiritual University". This is a spiritual university. By your simply writing "Godly University" (Vishwa Vidyalaya) people are unable to understand. You have to write the word "*University*". There is no other Godly university like this. Baba has seen some *cards* in which some words were missed out. Baba has told you so many times definitely to write the word "Prajapita", but, in spite of that, children forget to do it. The text has to be written accurately so that people can know that this is a big Godly *College*. Very good *serviceable* children who are engaged in service have a desire in their hearts to go and uplift particular *centres*; those centres have become slack and so they want to go and awaken them, because Maya is such that she makes them go to sleep again and again. They even forget that they are spinners of the discus of self-realisation. Maya creates a lot of *opposition*. You are on a battlefield. You have to remain very cautious that Maya doesn't turn your head around and take you in the wrong direction. Many are affected by the storms of Maya. Young and old, all are on the battlefield. Storms of Maya cannot make strong ones fluctuate. That stage is yet to come. The Father explains: Times are very bad and conditions are very bad. All the kingdoms are to be destroyed. They will dethrone everyone and it will then be the rule of the people over the people throughout the whole world. You are establishing your new kingdom and so all trace of the kingdoms here will finish. The rule of the people over the people then continues. Only when it is the rule of the people will there be fighting and quarrelling among themselves. In fact, there is no self-sovereignty or kingdom of Rama. This is why there is fighting throughout the whole world. Nowadays, there is a lot of upheaval everywhere. You know that you are establishing your own kingdom. You are showing everyone the path. The Father says: Constantly remember Me alone. Stay in remembrance of the Father and tell others to become soul conscious. Renounce body consciousness. It isn't that every one of you has become soul conscious. No, you still have to become this. You make effort and also inspire others to do the same. You try to stay in remembrance and then you forget. This is the effort you have to make. The main thing is to remember the Father. He explains to the children so much. You receive very good *knowledge*. The main thing is to remain pure. The Father has come to purify you and so you mustn't become impure. Don't forget that it is only by having remembrance that you will become satopradhan. It is in this that Maya causes obstacles and makes you forget. Day and night, let there be the concern to remember the Father and become satopradhan. Let your remembrance become so firm that, at the end, you remember no one but the one Father. In exhibitions as well, first of all explain that that One is the Father of all, God, the Highest on High. That One is the Father of all, the Purifier and the Bestower of Salvation for All. He alone is the Creator of Heaven. You children now know that the Father only comes at the confluence age. Only the Father teaches you Raja Yoga. No one except the One can be the Purifier. First of all, you have to give the Father's introduction. Now, if you were to sit and explain each picture to each one individually, how would you be able to explain to such a big crowd? However, the first and foremost thing to explain is the Father's picture. You have to explain that there is devotion of many, whereas knowledge is of just the One. The Father shows you children so many methods. Only the one Father is the Purifier and He also shows you the path. No one knows when the Gita was spoken. The copper age cannot be called the confluence age. The Father doesn't come in every age. Human beings are completely confused. Throughout the day, you only think about how to explain to others. The Father has to give you *directions*. You can hear a full murli on a *tape*. Some say that they do listen to a *tape*, and wonder why they

shouldn't listen to Baba *directly*, and so they come here personally. You children have to do a lot of *service* and show others the path. When people come to the exhibitions, they say that this is very good, but when they go outside into Maya's environment, everything flies away. They don't churn knowledge. You should then follow them up. When they go out, Maya pulls them; they become involved in mundane business. This is why Madhuban is remembered. You have now received understanding. You can go and explain anywhere who the God of the Gita is. Previously, you also used to go and bow down as they now do. You have now completely changed. You have stopped doing devotion. You are now changing from humans into deities. You have all the *knowledge* in your intellects. What would others know about who the Prajapita Brahma Kumars and Kumaris are? You explain that, in fact, they too are Prajapita Brahma Kumars and Kumaris. It is at this time that establishment takes place through Brahma. There definitely also has to be the Brahmin clan. The Brahmin clan exists at the confluence age. In earlier days, the topknot of brahmins was very well known. They were recognised as Hindus by their topknot or their sashes. Now even those signs have disappeared. You now know that you are Brahmins. After you become Brahmins, you can become deities. It was the Brahmins who established the new world. Through the power of yoga you are becoming satopradhan. You have to check yourselves. Do not have any devilish traits. Don't become like salt water. This is a sacrificial fire. Everyone is looked after where there is a sacrificial fire. There are *trustees* to look after sacrificial fires. Shiv Baba is the Master of the sacrificial fire. This Brahma is a *trustee*. The sacrificial fire has to be looked after. Whatever you children want, you can receive it from the yagya. If you accept and wear something from others, you will continue to remember them. The *line* of your intellect has to be very *clear* about this. You now have to return home. Very little time remains. Therefore, stay on the pilgrimage of remembrance very firmly. This is the only effort you have to make. Achcha.

To the sweetest, beloved, long-lost, now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. In order to make progress, remain engaged in spiritual *service*. Imbibe all the jewels of knowledge you have received and inspire others to do the same.
2. Check that you don't have any devilish traits. Am I living as a *trustee*? Do I ever become like salt water? Is the *line* of my intellect *clear*?

Blessing: May you be experienced in supersensuous joy and merged in the Ocean of Knowledge through your pure and positive thoughts.

All the species living in the ocean remain in the ocean and do not wish to come out - fish stay in the water – the ocean and the water is their world. Similarly, you children also have to remain constantly merged in the Father, the Ocean of Knowledge, with your pure and positive thoughts. Unless you have experienced remaining merged in the Ocean, you will not be able to experience swinging in the swing of supersensuous joy and remaining constantly happy. For this, keep yourself in solitude, that is, become introverted and impervious to the *vibrations* of all other attractions.

Slogan: Make your face a mobile *museum* in which the Father, the Point, is visible.

* * * O M S H A N T I * * *
