

**Essence:** Sweet children, churn the ocean of knowledge about the things you hear and this knowledge will then trickle into your intellects throughout the day.

**Question:** What skills of the present time will be useful in establishing the new world?

**Answer:** The sanskars of the skills of *science* with which they build *aeroplanes* and buildings etc. will go with them there. Although they may not take knowledge here, those skills will go with them there. You now know the *history* and *geography* from the beginning of the golden age to the end of the iron age. You know that everything your eyes see of the old world is now to be destroyed.

**Song:** You spent the night in sleeping and the day in eating.

Om shanti. The Father sits here and explains to you children. Just as He explained to you 5000 years ago, similarly He is now explaining to you in the same way how the old world is destroyed and how the golden-aged, new world is established. It is now the confluence of the old world and the new world. The Father has explained to you what has been happening from the beginning of the new world of the golden age up to the end of the iron age. He explains to you all the paraphernalia that exists and everything you see. People have sacrificial fires, do tapasya, make donations and perform charity etc. Whatever you see will not remain. None of the old things are going to remain. When an old building is demolished, all the good materials from it, such as *marble* etc. are kept aside and all the rest is destroyed. You children know that all of these old things are going to be destroyed. The skills of *science* will remain all the time. All of you know how this world cycle turns and what happens from the golden age to the end of the iron age. This *science* is also knowledge through which *aeroplanes* and electricity have all been invented. They didn't exist previously, but have been invented recently. The world will continue. Bharat is the eternal land. There is no annihilation. The skills of *science* through which you receive so much happiness also exist there. Things that you have learnt are useful even in your next birth. Some things will still remain. Here, when an *earthquake* takes place somewhere, they quickly build everything new again. There, in the new world, there will be the people who build aeroplanes etc. The world will continue and those who manufacture those things will come again too; their final thoughts will lead them to their destination. Though they don't have this knowledge, they will definitely come and invent new things. You have these thoughts in your intellects at this time. All of these things will end and just the land of Bharat will remain. You are *warriors* and are establishing self-sovereignty for yourselves with the power of yoga. There, everything will be new. Even the elements that are now tamopradhan will become satopradhan. You too are now becoming pure in order to go to the pure new world. You children know that you will learn all of those things and become very clever. You will become very sweet flowers. When you relate these things to other people, they become very happy. The better you explain to people, the happier they are with you. They say: You explain very well. However, when you ask them to write their *opinion*, they say: I will think about it. How can I write in such a short time? I cannot learn how to have yoga with the Father just by hearing this once. They do like it. You must definitely explain to them that this old world is to be destroyed. There is a huge burden of sin on your heads. This is the impure world in which you have committed many sins. Everyone in the kingdom of Ravan is impure and that is why people call out to the Purifier Father. You have this knowledge at this time. In the golden age, no one is aware that there will be the silver age after that. There, they experience their reward. You children are now becoming so wise. You know that the spiritual Father is teaching you. Baba is the *World Almighty Authority*, whereas those people are *authorities* on the scriptures. Those people, who study the scriptures, cannot be called the *Almighty*. All of those scriptures belong to the path of devotion whereas the Father is teaching you new things for the new world. Therefore, you children should experience a lot of happiness. Throughout the day, this knowledge should trickle in your intellects. *Students revise* whatever they have studied whereas, here, this is called churning the ocean of knowledge. You understand that Baba is teaching you an unlimited study, that is, He sits here and tells you all the secrets of the beginning, the middle and the end of the world. No one, apart from you, can understand these things. This is why you should experience a lot of happiness. You are very important people. The One who is teaching you is the highest-on-high Father. So, the mercury of your happiness should remain constantly high. Constantly *revise* these things in your intellects - how you were pure in the beginning and how you then became impure while taking 84 births. Now, according to the *drama plan*, Baba is purifying you. All the sages and holy men say: We do not know the Father, the Creator, or the beginning, the middle or the end of creation. You know that Christ will come once again at his own time. It was as though Christians had their kingdom over the whole world, but how could that be possible? How can everyone have the same

divine directions? Although they say that they want there to be the kingdom of Rama, they don't understand anything. Previously, you too did not know anything. You have now become Brahmins and you know that your age is completely separate. The Brahmin religion is established at the confluence age through the mouth of Brahma. You Brahmins are Raj Rishis. You are pure and are attaining your kingdom from Shiv Baba. Those people have yoga with the brahm element, not with the Father. Some have yoga with one thing and others have yoga with something else. Some are worshippers of someone and others are worshippers of someone else. No one knows who the Highest on High is. This is why the Father says: All of them are the devilish community, those with degraded intellects. They are slaves of Ravan. You now belong to Shiv Baba. You receive the inheritance of the new world of the golden age from the Father. The Father says: O souls, you now definitely have to become satopradhan from tamopradhan and you must, therefore, remember Me alone. This is something so easy! In the Gita, they have mentioned Krishna's name and shown him in the copper age. They have made a big mistake. However, these things will sit in the intellects of those who come here regularly. So many people come to the fairs. Look how the *saplings* are planted from them. People of so many religions come, and, in that too, there is a greater number of Hindus who are worshippers of the deities. You also have to explain the meaning of "worthy of worship" and "worshippers". You cannot explain too much at the exhibitions and fairs. Some come for four to five months to understand these things. Some understand these things very well. The more exhibitions and fairs you have, the more people will come. They will feel that this knowledge is very good and that they should therefore go to understand it. There aren't as many pictures at the *centres*; there are more pictures at the exhibitions. When you explain to them, they do like it, but when they go outside, where there is the atmosphere of Maya, they become engrossed in their business etc. This old world is now to be destroyed and the new world is to be created. Baba is establishing the sovereignty of heaven for us. We will go to the new world and build palaces. It isn't that palaces will emerge again from down below. The first and main thing you have to have faith in is that He is your Father and also your *Teacher*. He is the Seed of the human world tree. He has all the *knowledge* and this is why His praise is sung as being the Ocean of Knowledge. A physical seed is non-living and cannot speak, whereas that One is living. The Father has given you all the *knowledge* which you have to explain to others very clearly. So many people come to the fairs and exhibitions, but only a handful out of multimillions emerge. They come for seven to eight days and then vanish. By your doing this, someone or other will emerge. There is very little time and destruction is just ahead. You definitely do have to attain your karmateet stage. Remembrance is very essential for becoming pure from impure. You have to look after yourselves. Have the concern to become satopradhan, because you have a burden of the sins of many births on your heads. You have continued to come down the ladder because this is the kingdom of Ravan. You now have to ascend with the power of yoga. Day and night, have the concern to become satopradhan. Your intellects also need the *knowledge* of the world cycle. At *school* too, you are concerned to *pass* in certain *subjects*. The main *subject* in this is remembrance. You also need to have the knowledge of the beginning, the middle and the end of the world. Your intellects have the knowledge of the whole ladder and how you are climbing the ladder to the golden-aged, sun dynasty by having remembrance of Baba. You have continued to come down the ladder while taking 84 births and you now have to climb up again quickly. "Liberation-in-life in a *second*", has been remembered. You will claim the inheritance of liberation-in-life from the Father in this birth and become deities. Baba says: Children, you were part of the sun dynasty, then you became part of the moon dynasty and then the merchant dynasty. I now make you into Brahmins. Brahmins are the topknot. God, the Highest on High, comes and establishes three religions: Brahmin, deity and warrior. You know that we are now in the Brahmin clan. We will then go into the deity clan. Baba fills the intellects of you children with so much knowledge which you then have to imbibe. How else would you make others equal to yourselves? Very few people study and teach others very well and become part of the sun-dynasty kingdom. At this time, your ways and means are unique to the world. It is said that God's ways and means are totally unique. Apart from you, no one has yoga with the Father. So many come to the exhibitions and then go away; they become subjects. Those who study very well and also teach others can claim a good status. This *mission* of yours will continue to become stronger and many will then be attracted and continue to come here. It takes time for something new to spread. Many pictures will be made very quickly. Day by day, the number of human beings continues to grow. You know what the conditions will become when the war starts with *bombs* etc. Day by day, the suffering will become unlimited. Eventually, this world of suffering will come to an end. There won't be *total* destruction. It is remembered in the scriptures that Bharat is the

imperishable land. You know that your accurate memorial exists in Abu. You have to explain that that is your non-living memorial. Establishment is taking place here in a *practical* way. You are studying Raja Yoga for Vaikunth (Paradise). The Dilwala Temple has been created so beautifully. We are also sitting there. Our memorial was created there before we came here. You are sitting here to claim the sovereignty of heaven. You say: Baba, I will definitely claim the kingdom from You. Those who remember this throughout the day and also remind others will experience a lot of happiness. *Students* can understand for themselves whether they will *pass* or not. So few children out of hundreds of thousands receive a *scholarship*. The eight main ones are of gold, the 108 are of silver and 16,000 are of copper. For instance, when the Pope gives *medals*, he doesn't give everyone a gold medal. Some would receive a medal of gold and others of silver. The rosary is also created like that. You want to claim the *golden prize*. By claiming the silver prize, you become part of the moon dynasty. Baba says: Remember Me and your sins will be absolved; there is no other way. Just have the concern to *pass*. When the upheaval of war increases, you will begin to make effort with great force. At the time of their examinations, *students* busy themselves in making effort in order to *gallop*. This is an unlimited *school*. Continue to *practise* explaining at the exhibitions. People are not as impressed when they see *projector* shows as they are amazed on seeing the exhibitions. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### **Essence for dharna:**

1. Before the old world is destroyed, make your stage karmateet. Stay in remembrance and become satopradhan.
2. Always maintain the happiness that the highest-on-high Father Himself is teaching you. Study this very well and also teach others. Listen to this and churn the ocean of knowledge.

**Blessing:** May you be a master and a child who finishes any burden of the consciousness of "I" and experiences instant and practical fruit.  
When you have any type of the consciousness of "I", there is a burden on your head. However, since the Father is *offering* to take all your burdens, you just have to *dance* and fly. How can there then be questions? How will service take place? How will I give a lecture? You simply have to consider yourself to be an instrument and forge a *connection* with the *Power House* and sit down. Do not become disheartened for BapDada will make everything happen automatically. Consider yourself to be a child and a master and remain stable in an elevated *stage* and you will continue to experience instant and practical fruit.

**Slogan:** As well as donating knowledge, also donate virtues and you will continue to achieve success.
