

A Value-Based World (On the occasion of Teachers' Day)

Education is a must for all societies;
The values make us from devil to deities.

The worldwide corruption, violence
and women insecurity
Are all results of degradation of
values completely!

The divinity, politeness, patience,
sweetness were once way of life;
The life was contented and pure; no
trace of sorrow or strife.

Cordiality, amicability, happiness
were our nature basic;

It's time to return to our roots and
follow our instincts.

The Bharat was then called Paradise
or Heaven;

The nature and souls were pure;

everyday was a festival.
Then, body-consciousness and
resultant vices did havoc;
The moral degradation – great
cause of dismay and shock!

Now is the time of doomsday or
extreme irreligiousness;
And, also of reincarnation of God to
create – world, value-based.
Even the teacher – the builder of
society is virtue-less;
Beating the students to death is the
saga of hopelessness.

His name is God Shiva – the
incorporeal Supreme Being;
He teaches Rajyoga at Confluence to
give us spiritual wings.
Now the Maya's dangerous pomp is
in

Let's face its final showdown
through Godly communion;
With Supreme Father, Teacher and
Satguru; let's have a reunion.
Following the great scholar, Dr. S.
Radhakrishnan in letter and spirit;
By becoming God's no. 1 student,
let's welcome God's heavenly
retreat.
